## *Angel Hair by Gregory*

*Allow Angel Hair to Caress Your Mind, Body and Spirit*

Draw a warm bath...add bubbles...turn off the lights and light a scented candle...place chocolates on the edge of the tub...place your favorite drink nearby. Load the *Angel Hair* CD into your CD player...adjust the volume...press play. Slip your hand through the bubbles and into the water...is it just right? Slip out of your robe and drape it over the towel rack. Slowly slip your toes into the tub allowing your body to adjust to the temperature. Now place your other foot into the water. Slowly crouch down allowing the water to rise over your body until your sitting on the bottom of the tub. Lay back slowly allowing the bubbles and water to cover you. Lean back against the back of the tub stretching yourself out along its length. Relax. Take your time. Now slowly take a deep breath through your nose...hold it...then slowly release the air through your mouth. Repeat...as many times as you wish. Notice the candle as the flame performs a dance for your amusement...the aroma fills the air. A few bubbles escape their captivity and join the dance. You are relaxed...your body tingles slightly in the warm water...you are in heaven. The music fills the air as the candle continues to dance and the bubbles float like angels on the wind. You reach for your drink and take a sip. You place your glass on the edge of the tub. Your hand slips from the glass and floats over to the chocolates. You select one and place it into your mouth. If you feel light-headed, do not worry...you are experiencing heaven on earth. All of your senses...all of your mind...all of your spirit. *Angel Hair*.

Angel Hair is perfect for relaxation and meditation. The compositions are lengthy for uninterrupted contemplation and thoughtful reminiscence. The music is quiet, gentle, and well suited for infants, children and adults alike. *Baby Sleeping*, *Angel Hair*, and *Slumber* are original compositions intended to soothe mind, body, and spirit. *Pachelbel's Daydream* is a melodic improvisation over the well-known canonic bass line that defines the ever-so-popular *Pachelbel Canon in D*. The composition is unique, and not just another arrangement. *Sleeping Brahms* is a new age ambient arrangement of the popular lullaby by Johannes Brahms.
