Tara by Gregory

Relax, Be Pampered, Achieve Bliss

We are going on a journey. It's a journey of the mind, and of the spirit...a journey into samsara...bliss. As incense fills the air you find yourself drifting off into a deep slumber. Your eyelids grow heavy as day turns into twilight, and evening fills the air. You begin to dream as the real world fades into the distance and the veil of darkness lifts to reveal a glorious and wondrous place you've never seen before. You are startled at first, and then gaze upon this new place like a child with their favorite toy. You hear a sound in the distance...chanting, drumming, flutes, tamboura, sitar...you are slowly transformed. You imagine yourself sitting on a lotus blossom hovering over the sacred waters of a distant and long forgotten sea. You are Tara, goddess mother, embodiment of compassion. You have appeared from the Akasa, aether, space...Arupa to Rupa...formless to form. Kali, keeper of time, has sent you on this journey through the cosmic ripples of dimensional space. You have appeared out of the wisdom of the ages to speak Satya...truth...to all who will open their hearts, minds, and spirits. There is a tranquil yet warm feeling in the air...one of peace, beauty and cosmic oneness. Do you feel it? It is the place we all seek...contentment, fulfillment, happiness, and love. Experience *Tara*...hear the wisdom...know the truth.

Tara reflects the essence of eastern influences utilizing electronic textures and sound reminiscent of cultural and traditional music. The compositions are improvisatory in nature and lengthy, allowing for an uninterrupted meditative and relaxational experience. Western ears classify this music as World, Ambient, New Age, and Electronic. *Samsara* maintains a mesmerizing quality with its unique synth texture, simple drum, and snake-music quality. *Tara* manifests a melodic presence over a traditional sounding Indian tamboura and drum drone. *Akasa* is pure ambience with only a hint of melody occasionally piercing the sonic vail. *Arupa* is best described by its Sanskrit definition meaning “formless”, and *Go Quietly* has a southwestern influence with its haunting synth texture, native drum, thunder, and distant howling of coyotes.
